

Product Presentation

Package of 100 Units

- Contents: 10 cases of 10 kits
- Dimensions: 520 x 350 x 200 mm

Case of 10 Kits

- Contents: 10 kits
- Dimensions: 180 x 170 x 100 mm

1 kit

- Contents: 1 kit
- Dimensions: 105 x 160 mm

Labelling

- Name and address of the manufacturer
- Product name in different languages
- Commercial reference, batch and barcode
- CE marking
- Number of units
- Disposable
- Storage conditions

Uses and applications

In the health sector, it provides protection for visitors or sporadic workers when accessing clean areas, for carrying out specific jobs with protection against dirt due to splashes or sprayed particles for laboratory uses, the agri-food industry, airbrush painting and in general for all activities that require an environment free of particles or pharmaceutical, health or food contaminants. It promotes hygiene, preventing cross-contamination due to hair, as well as providing protection against non-toxic solid particles suspended in the air.

Storage Conditions

Store in a cool dry place. Avoid excess heat and protect from direct sunlight and fluorescent lighting, as well as proximity to high-frequency equipment.

Directives and Standards of reference

- **Regulation (EU) 2016/425** on Personal Protective Equipment
- **Royal Decree 866/2008** on plastic materials intended to come into contact with food,
- **Regulation 2016/1416**, on plastic materials and articles intended to come into contact with food.

Management System

Management System compliant with the ISO 9001 standards.

Product Conformity
