General characteristics

Description

Non-woven polypropylene beard cover, machine-made, with an elastic band for easy fitting and a secure fit. One size, non-sterile. 10 ± 2 g/m². Non-irritating to the skin, comfortable and odourless.

Manufactured in accordance with the requirements of Regulation (EU) 2016/425 on Personal Protective Equipment. The polypropylene material provides resistance to limited liquid penetration.

Shelf life: 3 years

Dimensions:

- Stretched length: 42 ± 2 cm
- Weight: 1,4 ± 0,2 g

Color distribution: White (DK03WB), Blue (DK03BB), Green (DK03GB), Red (DK03RB)

Clasification

- Class I Medical Device; Regulation (EU) 2017/745
- Category I PPE: Regulation (EU) 2016/425

Physical Properties

Composition and Features

Material used: Polypropylene (PP)

- Non-Sterile
- Protein-Free
- Free from chemical accelerators
- Latex-Free
- Powder-Free
- Tiuram-Free

Uses and applications

The disposable beard cover is designed to prevent the exposure and shedding of facial hair in environments where hygiene and contamination control are essential. It is commonly used in medical, dental, pharmaceutical and laboratory settings, helping to reduce the risk of contamination.

It is also widely used in the food industry, as well as in cleaning, mechanical, cosmetic and other industrial applications where appropriate hygienic protection is required. The product is latex-free and free from chemical accelerators, minimising the risk of allergic reactions and skin irritation.

In addition to providing an effective barrier against facial hair shedding, the beard cover is lightweight, breathable, comfortable and easy to fit thanks to its elastic design, ensuring a secure fit throughout the working day without compromising user comfort.

Directives and Reference Standards

- Regulation (UE) 2016/425 Personal Protective Equipment
- Regulation (UE) 2017/745: Regulation on Medical Devices
- ISO 13485:2016: Quality management systems for medical devices
- ISO 14001:2015: Environmental management systems

Storage conditions

Store in a cool, dry place, between 10 and 40 °C. Avoid excessive heat and protect from direct sunlight or fluorescent lighting, as well as from proximity to high-frequency equipment.

Management system

Quality management system according to ISO 13485.

Product conformity
