General characteristics

Description

Non-woven polypropylene clip cap with a double elastic band for a secure fit. The material provides effective protection to help prevent contamination of the materials being handled. The elastic band allows for easy fitting and adjustment. One size. Non-sterile. De 10 ± 2 g/m².

Shelf life: 3 years

Dimensions:

- Length: 53 ± 2 cm
- Weight: 2,8 ± 0,2 g

Color distribution: White (DM01W2), Blue (DM01B2), Green (DM01G2), Red (DM01R2)

Clasification

- Class I Medical Device; Regulation (EU) 2017/745
- Category I PPE: Regulation (EU) 2016/425

Physical Properties

Composition and Features

Material used: Polypropylene (PP)

- Non-Sterile
- Protein-Free
- Free from chemical accelerators
- Latex-Free
- Powder-Free
- Tiuram-Free

Uses and applications

The disposable protective cap is designed to contain hair and prevent the dispersion of particles in environments where hygiene and contamination control are essential. It is commonly used in healthcare facilities, dental clinics, laboratories, pharmaceutical and food industries, and other areas with specific hygiene requirements.

It is also widely used in the food industry, as well as in cleaning, mechanical, cosmetic and other industrial applications where appropriate hygienic protection is required. The product is latex-free and free from chemical accelerators, minimising the risk of allergic reactions and skin irritation.

In addition to providing an effective barrier against hair shedding, the clip cap is lightweight, breathable, comfortable and easy to fit thanks to its elastic design, ensuring a secure fit throughout the working day without compromising user comfort.

Directives and Reference Standards

- Regulation (UE) 2016/425 Personal Protective Equipment
- Regulation (UE) 2017/745: Regulation on Medical Devices
- ISO 13485:2016: Quality management systems for medical devices
- ISO 14001:2015: Environmental management systems

Storage conditions

Store in a cool, dry place, between 10 and 40 °C. Avoid excessive heat and protect from direct sunlight or fluorescent lighting, as well as from proximity to high-frequency equipment.

Management system

Quality management system according to ISO 13485.

Product conformity
